Dear Hiring Manager

I am writing to express my interest in the Game Development training opportunity at QSIT.

With a bachelor's degree in business management focused on Information Systems and a solid foundation in programming languages, I am well-prepared to transition into game development.

Though my background is primarily in web development, I have strong programming skills in C#, HTML, CSS, and JavaScript. My graduation project, "Orion," involved developing a social impact platform, enhancing my user experience and teamwork abilities—key components in game development.

I am passionate about creating engaging experiences and have begun exploring game engines like Unity. I am eager to deepen my knowledge in game design and 3D simulations, as well as AR/VR frameworks.

I thrive in collaborative settings, adapt well to tight deadlines, and welcome constructive feedback. I am excited about the opportunity to contribute to innovative projects at QSIT and look forward to discussing how my skills align with your goals. My resume is attached for your review.

Thank you for considering my application. I hope to hear from you soon.

Sincerely,

Amr Mohamed

January 23, 2025.
